ELITETRIM™ CORNICE COLLECTION 2010

ARCHITECTURALLY
RICHER THAN WOOD!

AN AFFORDABLE
ALTERNATIVE TO PLASTER!

ELITE TRIM™ CORNICE MOULDINGS ARE IDEAL FOR NEW CONSTRUCTION AND PROFESSIONAL REMODELLING APPLICATIONS.

EliteTrim™ cornice moldings offer the rich, carved detailing of expensive architectural wood and plaster moldings at an affordable price. The intricacy of the detailed patterns embossed on the face is what distinguishes EliteTrim™ cornice moldings from the products offered at big box stores and other retailers. The 5" is recommended for 8 foot ceilings, our 7" for 9-10 foot and 9" for ceiling heights of 10 to 12 feet.

THE BEAUTY OF NATURAL WOOD

The beauty of real wood moldings is eternal, be it Poplar, Oak, Maple or Cherry. Although MDF is very flexible in its application, there are many instances when painting or faux finishing just won't cut it. Elite Moldings recognizes this; and this is why we now offer our SM5 and SM7 lineup of MDF Crown Molding styles in stain grade wood.
